

FollowMyHealth™ Patient Portal Receives Meaningful Use EHR Certification

CHICAGO – June 20, 2013 – Allscripts today announced that FollowMyHealth™ v2.0 has received 2014 Edition Modular EHR Certification – for both ambulatory and inpatient – from Drummond Group’s ONC-ACB program, and is therefore considered compliant with the applicable criteria adopted by the Secretary of the U.S. Department of Health and Human Services.

FollowMyHealth is a patient engagement solution that combines the value of a personal health record, the power of a patient portal and the connectivity of a health information exchange (HIE). Based on the 2014 Edition Modular EHR Certification, FollowMyHealth is now officially recognized as satisfying the criteria necessary to enable providers to attest to the following Meaningful Use criteria: Patient Education; View, Download, Transmit (VDT); Secure Messaging (Ambulatory); Automated Numerator Recording and Quality Management System for eligible provider or hospital technology. Additional Software Used: MedAllies Direct Solutions v1.0.

“Electronically engaging and communicating with patients is at the heart of Meaningful Use stage 2,” said Paul M. Black, President and Chief Executive Officer of Allscripts. “To achieve this, providers must involve their patients in their own care and enable them to become proactive participants on their healthcare team. With this certification, providers can rest assured they are using a solution that will help them achieve Meaningful Use, enhance patient care and lower costs.”

Drummond Group’s ONC-ACB certification program certifies that EHRs meet the meaningful use criteria for either eligible provider or hospital technology. In turn, healthcare providers using certified EHR systems are qualified to receive federal stimulus monies upon demonstrating meaningful use of the technology – a key component of the federal government’s push to improve clinical care delivery through the adoption and effective use of EHRs by U.S. healthcare providers.

With FollowMyHealth, patients can access and manage their health and wellness information in a secure, online environment – 24 hours a day/7 days a week, and download, fax or email records for the entire family from any computer, smartphone or tablet. In addition, patients can view test results, refill prescriptions, request appointments, pay bills, fill out forms before appointments and communicate with their doctors.

As noted by the Drummond Group:

“This EHR Module is 2014 Edition compliant and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of the U.S. Department of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services or guarantee the receipt of incentive payments.”

Allscripts Follow My Health, Certified 6/13/13, Version 2.0, Criteria Certified: 170.314(a)(15);170.314(e)(1, 3); 170.314(g)(1, 4), Certification ID Number: 06132013-2039-1, No Clinical Quality Measures tested. Certified for both ambulatory and inpatient. Relied upon software - MedAllies Direct Solutions v. 1.0.

Certification criteria tested and certified:

Ambulatory:

- 314.a.15 - Patient Education
- 314.e.1 - View Download and Transmit
- 314.e.3 - Secure Messaging
- 314.g.1 - Automated Numerator Recording
- 314.g.4 - Quality Management System

Inpatient

- 314.a.15 - Patient Education
- 314.e.1 - View Download and Transmit
- 314.g.1 - Automated Numerator Recording
- 314.g.4 - Quality Management System

This certified product-version may require initial one-time costs and annual service fees to support online patient service (170.314(e)(1) – View, Download, and Transmit to 3rd party.

*A certification that is issued to an integrated bundle of EHR Modules shall be treated the same as a certification issued to a Complete EHR except that it must also indicate each EHR Module that comprises the bundle;

*A certification issued to a Complete EHR or EHR Module based on applicable certification criteria adopted by the ONC at subpart C of this part must be separate and distinct from any other certification(s) based on other criteria or requirements.

This certification will be noted on the Certified Health IT Product List (CHPL) [website](#) by the end of June 2013.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the federal securities laws. Statements regarding future events or developments, our future performance, as well as management's expectations, beliefs, intentions, plans, estimates or projections relating to the future are forward-looking statements with the meaning of these laws. These forward-looking statements are subject to a number of risks and uncertainties, some of which are outlined below. As a result, no assurances can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what impact they will have on our results of operations or financial condition. Such risks, uncertainties and other factors include, among other things: the possibility that our current initiatives focused on product delivery, client experience, streamlining our cost structure, and financial performance may not be successful, which could result in declining demand for our products and services, including attrition among our existing customer base; the impact of the realignment of our sales and services organization; potential difficulties or delays in achieving platform and product integration and the connection and movement of data among hospitals, physicians, patients and others; the risks that we will not achieve the strategic benefits of the merger with Eclipsys Corporation (Eclipsys) or our acquisition of dbMotion, Ltd. (dbMotion), or that the Allscripts products will not be integrated successfully with the Eclipsys and dbMotion products; competition within the industries in which we operate, including the risk that existing clients will switch to products of competitors; failure to maintain interoperability certification pursuant to the Health Information Technology for Economic and Clinical Health Act (HITECH), with resulting increases in development and other costs for us and possibly putting us at a competitive disadvantage in the marketplace; the volume and timing of systems sales and installations, the length of sales cycles and the installation process and the possibility that our products will not achieve or sustain market acceptance; the timing, cost and success or failure of new product and service introductions, development and product upgrade releases; any costs or customer losses we may incur relating to the standardization of our small office electronic health record and practice management systems that could adversely affect our results of operations; competitive pressures including product offerings, pricing and promotional activities; our ability to establish and maintain strategic relationships; errors or similar problems in our software products or other product quality issues; the outcome of any legal proceeding that has been or may be instituted against us and others; compliance obligations under new and existing laws, regulations and industry initiatives, including new regulations relating to HIPAA/HITECH, increasing enforcement activity in respect of anti-bribery, fraud and abuse, privacy, and similar laws, and future changes in laws or regulations in the healthcare industry, including possible regulation of our software by the U.S. Food and Drug Administration; the possibility of product-related liabilities; our ability to attract and retain qualified personnel; the continued implementation and ongoing acceptance of the electronic record provisions of the American Recovery and Reinvestment Act of 2009, as well as elements of the Patient Protection and Affordable Care Act (aka health reform) which pertain to healthcare IT adoption, including uncertainty related to changes in reimbursement methodology and the shift to pay-for-outcomes; maintaining our intellectual property rights and litigation involving intellectual property rights; legislative, regulatory and economic developments; risks related to third-party suppliers and our ability to obtain, use or successfully integrate third-party licensed technology; breach of data security by third parties and unauthorized access to patient health information by third parties resulting in enforcement actions, fines and other litigation. See our Annual Report on Form 10-K/10K-A for 2012 and other public filings with the SEC for a further discussion of these and other risks and uncertainties applicable to our business. The statements herein speak only as of their date and we undertake no duty to update any forward-looking statement whether as a result of new information, future events or changes in expectations.
